heading 2

The image shows a screenshot of a WordPress theme editor interface. At the top, there are three circular icons: black, blue, and grey. Below them is a dark header bar with a red button containing the white text "Main Title". To the right of the title is a small "BLOG" button. A black arrow points downwards from the "Main Title" button to the text "Lab's WordPress Themes". The text "Lab's WordPress Themes" is bold and dark, followed by a smaller, lighter text: "is wide-variety of high quality Premium WordPress Themes designed to work out of the box. Create your own WordPress website today!" Below this text is a red button with the white text "Subtitle". A black arrow points upwards from the "Subtitle" button to the "Main Title" button. The background of the editor has a light grey gradient.

HTML Headings are
titles or **subtitles** you
wish to display on your
webpage

There are headings on a
webpage that makes the
search easier and improve
the readability of text.

SYNTAX

- Like all the other tags we have learned so far, heading tags follow the same syntax rules
- There needs to be an opening tag, the information this tag takes(in this case text), and a closing tag

```
<h1>Hello</h1>
```

```
<html>  
<body>  
  
<h1>E</h1>  
<h2>F P</h2>
